UCA Rochester, UK

2011-2015
BA | Visual Comms Design
UMAS, Croatia

Bio

XyloDrone is a London based artist working across visual art, calligraphy, code, photography and sound. The work keeps asking what happens to an image, and to the person in it, once it moves through screens, markets and other people's hands; and how that image then shapes the people it reaches, their behaviour and so society.

History

Since 2014
